

INFRASTRUCTURE AND CAMPUS MAINTENANCE POLICY

Preamble

The institution has a systematic policy to maintain its infrastructures and Learning resources for providing an effective learning environment for the stakeholders.

The following infrastructures and learning resources come under an agenda entitled by maintenance.

1. Buildings and Classrooms
2. Laboratories
3. Sports
4. Computer systems
5. Wifi Networking
6. Surveillance Systems
7. Library
8. Campus and its environment
9. Energy
10. Water resources

Scope

A well equipped infrastructure and green environment to make the institution a more friendly and acceptable learning platform for its stakeholders. Maintenance of infrastructure is a never ending process and its cost is always higher than the cost of the investment of the infrastructure.

Objectives

- To achieve clean , green and zero pollution.
- To achieve Sustainable Development Goals-2030
- To provide secure, safe and healthy learning facilities
- To Achieve use friendly environment

Policy Statement

The Institution adopts a regular schedule to maintain buildings, classrooms, laboratories, sports and other resources.

An exclusive strategic plan is adopted to conserve the floral and faunal species which supports the clean and green environment.

Solid waste management is effectively followed.

Effective water management through rain water harvesting, drainage systems, groundwater recharge and percolation ponds are practiced.

A systematic maintenance and standard operating procedures are adopted to provide safe, and secure operation of all equipment and learning facilities.

Responsibility

The Principal of the institution looks after the maintenance of infrastructure such as buildings, roads, water facilities and electricity. Further, the assigned duty of Head of the Institution includes sending proposals to higher education department of the Tamil Nadu government and maintenance of departments, classrooms, seminar halls, auditorium, and outdoor playgrounds.

An annual budget is allocated for the above said purpose from the PWD of the State Government.

A separate cell for campus maintenance is constituted for cleaning and maintenance of campus buildings, drainage, roads, gardens, playgrounds and general facilities with supporting staff. Minor repairs and services at various building are also carried out as per the state government norms.

Since the institution is a 164 year old institution, many members of the public have faith in this institution and they support it to maintain a campus environment as clean and green.

Implementation

Infrastructure and Campus Maintenance Policy will be executed through a committee with the cooperation of stakeholders.

Approval and Review

Infrastructure and Campus Maintenance Policy will be reviewed once in three years or as and when required. The Principal of the institution will be the custodian of the policy
