GOVERNMENT ARTS COLLEGE(AUTONOMOUS)

SALEM - 636 007

REGULAR ACTIVITY REPORT

The Eco Club of Government Arts College (Autonomous) Salem-7 has organized various activities with the guidance and support of Principal of our college.. The volunteers have shown keen interest in participating and contributing in all the activities.

The college has two units each with 50 student volunteers. The activities are coordinated through the teacher coordinators. As most of the UG students are enrolled in either NSS, NCC, RRC, YRC, etc., the interested PG students are alone enrolled in ECO club.

For each unit 50 students are enrolled during the month of August 2019 and they are active from the day of enrolment. The student volunteers are given opportunities to know the nature and save the nature by co-living with it. Its functioning is not only beneficial to the volunteer but also an opportunity to save the nature thereby to sever the next generation of human and animals.

All the ECO club students are added to a Whatsapp group and the messages and mails concerning NSS are passed time to time. This enables the teacher corodinators to reach and contact the student volunteer easily.
